

ARPIT RAJ

VIDEO EDITOR

PROFILE

Video editor with two years of hands-on experience spanning news and brand content — from producing 100+ YouTube videos and Shorts as part of a digital newsroom, to an internship editing anchor-led and explainer content for a media platform, to creating short-form, meme-driven, and AI-generated video content for a corporate brand's social channels. Comfortable owning the full post-production pipeline in Adobe Premiere Pro — sequencing, color correction, audio mixing, captions — and translating current social media trends into content that performs. Now looking to bring that range into a full-time newsroom or content team.

WORK EXPERIENCE

Mavilach Group | Video Editor

July 2026 – August 2026

- Created and edited short-form video content for the company's social media platforms.
- Produced AI-generated videos and creative visual content for social media.
- Created and edited anchor-led videos for digital content.
- Created engaging in-house office reels featuring employees, workplace moments, and company activities.
- Developed meme-based and trend-driven content to increase audience engagement.
- Edited YouTube Shorts and other short-form videos with strong storytelling, pacing, and visual appeal.
- Added transitions, music, sound effects, captions, and basic color correction to enhance video quality.
- Used creative concepts and current social media trends to produce engaging content for the company.

Bharat Update | Video Editor Intern

December 2025 – March 2026

- Edited explainers, voice-over reels, anchor-led videos, and viral short-form content using Adobe Premiere Pro for digital and social media platforms.
- Created explainer videos using stock footage, motion graphics, and text animations to simplify complex topics.
- Managed end-to-end post-production, including editing, sequencing, audio mixing, color correction, and visual enhancements for digital news content.
- Optimized videos for Instagram Reels, YouTube Shorts, and social media platforms, ensuring editorial accuracy and audience engagement.
- Collaborated with reporters, anchors, producers, and digital newsroom teams to deliver platform-ready content within tight deadlines.
- Used creative editing, pacing, transitions, and visual storytelling to improve viewer retention and content performance.

WE YUVA | Video Editor

May 2024 – November 2024

- Edited digital news packages using Adobe Premiere Pro for YouTube and digital platforms.
- Produced and edited 100+ YouTube videos and Shorts for news content.
- Assisted in the post-production of 2–3 documentary films, focusing on editing and storytelling.
- Created graphics using Adobe Photoshop.
- Worked efficiently in a fast-paced newsroom environment, managing multiple projects and meeting deadlines.
